MEMORANDUM FOR THE RECORD

Morning Meeting of 26 July 1965

There was a discussion of Ambassador Taylor's telegram concerning the question of action against SAM sites in North Vietnam and the need for thorough intelligence study of the locations and capabilities of the SAM sites. DCI said he had talked with the Secretary of Defense and would like to have DIA take the lead in developing such studies. [] would be the CIA representative. [] raised a question as to whether DIA or CIA should take charge of the study. [] was asked to consider the matter and to advise DCI.

3. DCI directed dissemination of an OCI memo recapping the 24 July shutdown. (OCI)

4. DCI directed that [] in dealing with an intelligence look at the SAM problem, consider ways and means to improve field PI performance and the advisability of cutting back on the number of SAC U-2 flights. A memo from DCI to SecDef could set forth any recommendations growing out of such consideration.

5. Referring to the DDI statement on Communist logistics capabilities in Vietnam which is an annex to the current SNIE, DCI asked that this be called to General Carroll's specific attention. (DDI)

6. DCI asked that the basic intelligence fact book be called to Chet Cooper's attention so that he may in turn show this to Bundy. (DDI)

7. Referring to General Fitch's request for a SNIE on the introduction of U.S. troops into Laos near Route 9, and Secretary Rusk's suggestion for a SNIE on Vietnam operations, Kent was directed to seek Community guidance as to the urgency and validity of these studies.

9. ORR is to be asked to prepare a study of the specific logistics requirements of the Viet Cong. (DDI)

10. DCI directed DDP to brief Clark Clifford on the Agency's plans for []. He also asked that Clifford be briefed on the breakdown of the Community budget to show the relatively small amount spent by the CIA as compared with DOD intelligence components.

11. deSilva is to arrange an appropriate briefing agenda for a session here at Headquarters with Ambassador Lodge sometime this week. Briefing materials should include the facts on the size, responsibilities, successes, and setbacks of the MACV intelligence component. Our plans and proposed solutions are to be covered. (deSilva)
